CHICAGO PHOTOS

#### WHY WE ARE LOSING IN VIETNAM

Chicago police and National Guard strategists deploy their forces to contain demonstrators in Grant Park Wednesday afternoon. This LNS composite telephoto shows: 1) line of cops on bridge, 2) line of guardsmen with rifles, bayonets and a machine gun, 3) gaggle of cops and guard, and 4) more cops in five-deep ranks blocking march. How did it work?

Well, we took the elevator from the fifteenth floor and walked out the front door of the Hilton into hundreds of demonstrators and a cloud of tear gas. Then the ruction did begin and we all fought and bled.

!!!Lurid details inside!!!

You hippies, between the earth and sky,  
are the beginning of a new continent,  
an Earth of Fire rising strangely above,  
or hallowed out below what was once  
this sick country - an earth of fire first  
and, if you like, an earth of flowers.  
But you must now begin to create another  
continent. Jean Genet after Chicago.
